

Flashers with red LEDs / with yellow LEDs

accessories

**Warns!
Secures!
Protects!**

GLORIA WB Warning Flasher

GLORIA Warning Flashers - easy and quick marking of accident sites or source of danger

Extremely suitable in difficult light situations (for example in the dark, in rain, in the fog or with smoke, in the place of fire).

A MUST-HAVE if you want to ensure proper signing of the accident place.

Warns in breakdown situations! Secures scenes of accidents! Protects against sources of danger!

A high-quality GLORIA product as ideal addition to the emergency and safety equipment in vehicles, e.g. in breakdown situations and accidents. It does not replace the protection material required by Road Traffic Act e.g. the warning triangle.

At best suitable for individual protection or marking of safety-relevant objects.

Areas of use:

- Vehicles,
- Trucks,
- Military vehicles,
- Rescue vehicles,
- Special vehicles,
- Construction vehicles,
- Authority vehicles,
- Security area,
- Leisure time,
- Mountain climbing, trekking,
- Sports and sailing boats,
- Motorbikes.

16 red, ultra-bright LED-lights.

Waterproof and floatable.

Visible from a distance of 500 m at daytime, 1000 m at night and 10 miles in the water.

Available in orange colour with red LED's or in blue colour with yellow LED's.

Maximum battery life span up to 70 hours (depending on the light programme).

Tested in accordance with 2002/95/EC. Strong magnetic contact for fixing e.g. to car bodies.

Flashers with red LEDs / with yellow LEDs

accessories

GLORIA-WB Warning Flasher Orange/Red with red LEDs

GLORIA-WB Warning Flasher Blue/Yellow with yellow LEDs and single-carton packaging

Product and performance features
