GLORIA WH 6 / WH 9 STAR – innovative cartridge operated, environmentally friendly water extinguishers

A comprehensive product range with trend-setting, consistent semi-automatic operation with an in-house developed, fibre-glass reinforced, high-quality special plastic valve in the distinctive GLORIA design, integrated with stable handle for easy carrying.

GLORIA WH STAR water extinguishers can be used in the following fire classes:

Type	A	B	C	MED
WH 6 STAR	34	–	–	–
WH 9 STAR	43	–	–	–

Areas of use:

- Agricultural sector
- File storages
- Offices
- Wood processing
- Paper and Packaging storages
- Textiles
- Firing ranges and banquettes
- Marine industry
- Living areas

Intuitive and thus applicable extraordinary fast: Unlock - Lift handle – Ready!

Extinguishing agent definitely without environmentally damaging, perfluorinated tensides PFOS or PFOA.

Extinguishers leave minimum contamination after the fire fighting deployment.

Water extinguishers with a capacity of 6 and 9 l of water, enriched only with an impregnate.

The impregnating additive in the water is biodegradable.

Hose connection and diptube made of stainless steel.

Extinguishers with special nozzle for high area protection and smooth output.

Serially equipped with quality wall bracket, appropriate car bracket is available separately.

GLORIA WH 6 STAR

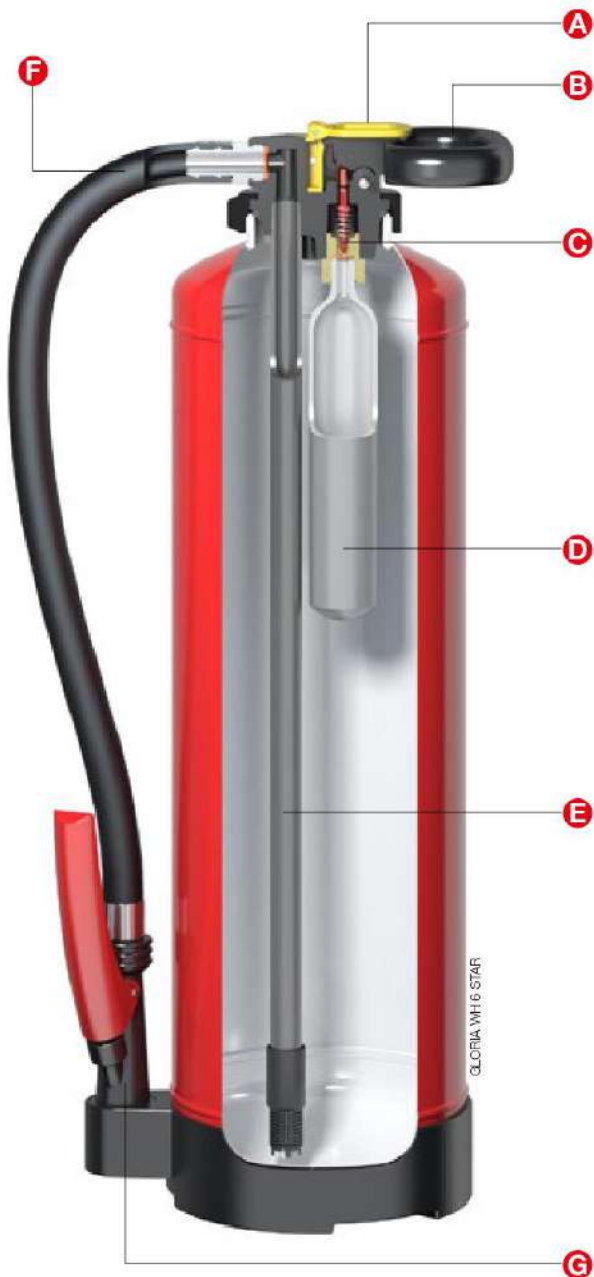

GLORIA WH Star line - water extinguishers with top level results - 9 litre with 43 A!

GLORIA WH STAR fire extinguishers with rating up to 43 A – without additives harmful to the environment. High-performance water extinguishers comparable to foam fire extinguishers in the A-rating.

Especially useful in extinguishing of wood, paper and textile, due to good wetting of hydrophobic materials.

WH 6 / WH 9 STAR

portable

- Pull the **yellow safety pin A**.
- By lifting the **handle B**, the **puncture pin C** laps the **CO₂ gas cartridge D**.
- Abruptly **CO₂** flows into the container.
- Through the **driptube E** the extinguishing agent gets into the **hose assembly F**.
- The rotating and suppressible **extinguishing pistol G** allows for a targeted and regulated fire fighting.

GLORIA STAR line - lifting the safety pin.

GLORIA STAR line family.

Product and performance features

- Fire extinguisher container with two suspension clips, made from high quality steel, externally covered with hard-wearing polyester resin powder coating, free from heavy metals.
- Extinguishers with high-quality, long-lasting internal coating against corrosion.
- Consistent, high-strength fibre-glass reinforced special plastic valve body – strong, sturdy, stable, moisture resistant, corrosion free, high temperature resistant, UV resistant.
- Large, maintenance friendly neck ring M 74, consistent, black-coloured, anodised metal union nut.
- Internal CO₂ cartridge with PE-coating and connection thread M 18.
- Shock-resistant plastic footing ensuring stability and protection against corrosion.
- Three bolts welded on the bottom of the container ensure excellent fixing of the footing against drop-off or twisting.
- Long-lasting hose assembly with fabric lining made from synthetic rubber material.
- Approved to use on electrical installations up to 1000 V at min. distance 1 m.
- Each fire extinguisher delivered in a separate cardboard box.
- Possibility of certification for compliance with the MED Directive.

Type	Model	PN	Weight of charge unit [kg]	Extinguishing agent	Qty of extinguishing agent [l]	Propellant gas	Discharge time [s]	Throw [m]	Working temperature [°C]	Bracket H/W/D, Ø [mm]
WH 6 STAR	W 6 H	803821.0000	≈10,3	Water with impregnate	6	CO ₂	64	4	0 / +60	540 / 280 / 165, 150
WH 9 STAR	W 9 H	803831.0000	≈16,5	Water with impregnate	9	CO ₂	93	4	0 / +60	575 / 280 / 205, 190
